Ideation Phase

Empathize & Discover

Date	
Team ID	SWTID-2026-6582
Project name	Smart library request workflow in service now
Maximum Marks	4 Marks

Empathy Map Canvas:

Students and faculty members using the Smart Library Request Workflow in ServiceNow need a simple, fast, and transparent way to request books and track their status, because they often feel frustrated with delayed approvals, lack of communication, and complex processes. They expect a user-friendly system with real-time updates, automated notifications, and quick fulfillment of

requests to support their academic and research needs.
